CHARLES A. LEE IN AN ECONOMY MOVE

STATE SUPT. PROPOSES SURVEY OF SCHOOLS

TO HOLD CONFERENCE

Uel W. Lamkin, Miss Katherine Franken and S. C. Richeson Attending Meeting Today

President Uel W. Lamkin, Miss Katherine Franken, and S. C. Richeson, high school inspector for the Northwest Missouri district, are attending a conference called by Charles A. Lee, state superintendent of schools at Jefferson City today. Seventeen educators from all parts of the state will attend this meeting.

Mr. Lee will present his plans for making a school survey of the state. The matter will be taken up in detail and if it is decided to make the survey, it will be made in co-operation with the educational institutions that will be represented at this conference.

The survey, as planned by Mr. Lee does not seek to ascertain the rank of Missouri educationally, but to learn in detail the facts about the school system of Misssouri in order that he may more effectively meet the needs of all the schools. The survey will include the physical surroundings, facts about the buildings, the equipment, certification of teachers, tenure of teachers, enrollment and average daily attendance.

This will be the first state wide survey on such a comprehensive plan ever made in the state. The aim of the survey is to bring about the most economy with the greatest degree of effectiveness in the educational system of the state. There is considerable loss both in energy and funds as things now are in the schools and it is the wish of the department of education to take measures to effect a change for the betterment of all districts.

The following educators will attend the conference:

A. G. Capps, professor of school administration of the University of Missouri.

M. G. Neale, dean of the School of Education, University of Missouri.

C. A. Phillips dean of the faculty, Warrensburg Teachers' college.

President Uel W. Lamkin of the Maryville Teachers' College.

President Clyde M. Hill of the Springfield Teachers' College.

George Melcher, assistant superintendent of the Kansas City schools.

William H. Zeigel, dean of the faculty of the Kirksville Teachers' College.

R. S. Douglas of the Cape Girardeau Teachers' College.

C. A. Greene, superintendent of schools of Sedalia.

T. R. Luckett, county superintendent of schools of Pettis County.

Elmer White, county superintendent of schools of Lafayette County.

Charles E. Northcutt, county superintendent of schools of Boone County.

T. E. Vaughn, superintendent of schools Jefferson City.

Miss Clara Gardner of the Joplin schools.

Miss Elizabeth Buchanan of the Kansas City schools.

Miss Tillie C. Gecks of the St Louis schools.

All of the high schools supervisors have been called to this conference by Mr. Lee. They are: C. F. Daugherty S. C. Richeson, R. K. Phelps, E. W. Allison, J. Will Pierce, John B. Boyd and W. G. Dillon.

Mr. Lee will preside at the conference.

College Will Plant Wheat Seed Saturday

Results Will be Tabulated by W. W. Stanfield in the Hessian Fly Experiment Test.

The agriculture department of the College will start the planting of the Hessian fly experiment wheat Saturday. It was found by experiments last year that the Hessian fly pest infests early planted wheat. The wheat will be planted under the direction of W. W. Stanfield, the College agriculture teacher, and accurate results will be tabulated.

Wheat will be sown in lots every week and the results of the yield compared to determine the effect of the fly on the wheat planted early and the late planted seed.

U. S. Has No Power to Demand His Return

Says John W. Weeks, Secretary Of War, To American Legion at Indianapolis In Letter

Indianapolis, Sept. 14—The United States has no right by the provisions of international law nor by the terms of the separate treaty with Germany to ask the extradition of Grover Cleveland Bergdoll, John W. Weeks, Secretary of War, said in a letter to the American Legion here.

"The right of Germany at the present time to surrender Bergdoll is undeniable. The expediency of complying with a request that he be surrendered, assuming that such a request was made, is a matter for Germany alone to decide. Were the United States in a position to demand his return, I am sure there would be no hesitancy on the part of this or any other department of the government to take steps to that end."

WALTON CENSORS TULSA TRIBUNE

PUBLISHER WILL DEFEND CONSTITUTIONAL RIGHTS

TO COMPLY WITH RULES

Owner Asserts That It Is Act Of Personal Despotism Seldom Equalled In American History

Tulsa, Okla., Sept. 14. — Asserting that Governor Walton's attempt to suppress the freedom of the press by ordering a military censorship of the Tulsa Tribune is the "climatic act in the prosecuting of personal despotism seldom equalled in American history," R. L. Jones, publisher of the Tribune said this afternoon.

Jones declared he would defend the constitutional rights in the highest courts of the United States.

The order of Governor Walton to have a military censor inspect all news and editorial matter prior to publication had gone on today in the Tulsa Tribune.

Adjutant General Markham officially announced the censorship.

Muskogee, Okla., Sept. 14—Censorship of the press is Governor Walton's latest step in his campaign to "clean up Oklahoma." It was in effect in Tulsa today and was threatened here.

"Governor Walton has already attempted to nullify the Constitution of Oklahoma by ordering a suspension of the right of habeas corpus under military law, although that is expressly prohibited in the state constitution," Jones said.

"The Tribune will defend its constitutional privilege in the courts, but in the meanwhile we shall comply with the rules of the military censorship.

"The true story of Tulsa has never been told and it never will be told so long as Governor Walton continues his tyranical course.

"Unless the rights that have been sacred in America since the days of 1776 are now to be trampled upon, we may rightly expect to gain legal sanction to publish all news about conditions in Oklahoma without favor.

"Governor Walton has the power to suppress mob law, and to see that those guilty of mob violence are brought to justice. The Tribune will continue to support him only as long as he keeps within his constitutional rights."

MANY SUITS FILED IN CIRCUIT COURT

TOMORROW IS LAST DAY FOR SERVING PAPERS.

COURT OPENS ON OCT. 1

Brice C. Hall, Administrator of Estate of John W. Colden, Deceased, Files Four Suits.

Since late yesterday afternoon up to 2:30 o'clock this afternoon eight cases were filed in the office of the circuit court to come up at the October session of circuit court. Tomorrow is the last day that cases can be filed, on which papers can be served, for the October term of court. Virgil Rathbun, clerk of the circuit court and Henry Westfall have started making up the docket which will be ready in a few days. Court will open Monday, October 1.

The Pilsbry-Becker Engineering Co. vs. Russell I. Bilby case was filed yesterday afternoon. The engineering company is asking for payment of an account, alleging that the defendant owes for merchandise for the sum of $200.

The divorce case of Mabel Montray against Louis G. Montray was also filed yesterday. Mrs. Montray is asking for divorce on grounds of brutal treatment. The petition asks for part of the property and possession of their infant child. She is now a resident of Topeka, Kan., but formerly lived at Conception Junction where her husband has been employed on railroad. They were married in 1910.

Brice C. Hall, administrator of the estate of John W. Colden, deceased has filed four suits in court for the collection of notes. The first case is against William W. Linebaugh and Howard Garrett for a note alleged owed, amounting to $636 with interest at 8 per cent.

The second is against Lawrence M Cummins for $1275 note with interest at 8 per cent. The third suit is Brice C. Hall administrator of the annexed estate of John W. Colden against Howard and Emma Garrett. The petition calls for the payment of $1275 on a note and 8 per cent interest.

The fourth case of Hall is versus Ned T. Garrett and Howard Garrett The plaintiff claims payment of $275 with interest at 8 per cent, an additional 10 per cent, attorney's fees and cost of collection.

Two more civil cases were filed this afternoon in circuit court. The Citizens State Bank of Graham, a corporation, is suing William J. Leeper on a note. It asks judgment of $880.50 with interest at 8 per cent, $100 attorney's fees and cost of suit. The promissory note was executed July 27, 1921 and was due January 1, 1922, it is alleged.

Jane and John Todd have filed an attachment suit against James H. Gatton. The defendant has recently filed a voluntary bankruptcy petition at St. Joseph. The plaintiffs ask judgment for the remained of a $1200 promissory not that was executed. Two payments, $343 and $500 have been paid on the note. The plaintiffs also ask for $50 attorney's fees and cost of the suit.

First M. E. Church Is Holding a Conference

The Rev. C. C. James Attending Meetings At Kirksville—Program Is Given

The annual Missouri conference of the First Methodist Episcopal Church is being held in Kirksville this week, starting Tuesday afternoon and ends Sunday. The Reverend Mr. C. C. James, pastor of the Maryville First M. E. Church is in attendance at the conference and sends the following program which was carried out at the conference:

A reception was given Tuesday evening, Bishop E. L. Waldorf of Wichita, Kan., and members of Missouri Conference welcomed.

The conference proper opened at 8:30 o'clock Wednesday morning with an address by Bishop E. L. Waldorf. The sacrament of the Lord's Supper was administered. Memorial service for the deceased during the past year conducted by the Rev. Dr. W. F. Biemis. The conference was organized with E. L. Robinson, secretary; A. F. Croy as statistician; and G. B. Draper, treasurer. The working committees were also appointed. In the afternoon Mrs. Ethel Ruggles of India spoke at the Woman's Foreign Missionary Anniversary. The anniversary of the General Deaconess Board was held in the evening. Dr. E. C. Tullar of Buffalo gave the address. Also the Board of Claimants was held, Dr. A. T. Stafford made the address.

This afternoon a business session s being held. Mrs. R. B. Dallmar gives address to the Woman's Home Missionary Society. E. R. Buck of Missouri Wesleyan and Dr. J. W. Hancher of Board of Education will give an address this evening.

The session will be concluded Sunday by services in the churches, ordination services, and meeting of the American Bible Society and meeting of the Board of Temperance.

The conference heard the reports of the districts superintendents, Drs. C. J. English, E. B. Thompson, C. H. Brott and William F. Beimis. A committee was raised on inter-conference relations looking to the merging of the German and English conferences in Missouri. The report of the committee is: "In view of the proposed early merger of the St. Louis German and West German conferences with the continuous English conferences and for the purpose of simplifying the educational problem of Missouri Methodism.

"Resolved, that the Missouri conference approve of a memorial at the St. Louis conference to the general conference meeting in May 1924, praying for an enabling act to transfer the counties Montgomery, Lincoln, Warren and St. Charles from the Missouri conference to the St. Louis conference."

This is important legislative action by which the Central College of Warrenton was transferred to the territory of the St. Louis conference.

Has Interesting Exhibit of Fair Photographs

F. R. Marcell Has Collection on Display at Maryville Drug Co.,—Shows Many Scenes

An interesting exhibit of photographs is on display at the Maryville Drug Co. It comprises many scenes from the street fairs of earlier days in Maryville.

Pictures of the street decorations both by day and night, children's parades, flower parades, free acts, horse show, booths, the crowds and many others help to write an indelible history of years ago.

Reminiscences of pre-Valstead days are brought back by the picture of the booth erected in front of "The Oak." The local band is pictured in front of the arch where the public wedding was staged. A picture of the police patrol and the special police is also shown.

From the apparent size of the crowds, the present committee will find it a task to equal the record made by the street fairs of the old days.

The pictures are from the collection of negatives by F. R. Marcell and are as well preserved as though they were made only yesterday.

Angell Visitors Leave.

Mrs. W. T. Miller, who has been visiting her parents, Mr. and Mrs. D. S. Angell, for the last three weeks, left for her home in Ault, Colo., in a car yesterday noon. Mrs. Miller visited other relatives while here. Miss Helen Ramey, also of Ault, Colo, visited here and returned yesterday in the car with Mrs. Miller.

Has Position at Marcell's

Miss Nettie Hudelson of Armour, S. D., has taken a position with the F. R. Marcell studio. She began her work the first of this week. Miss Hudelson formerly was in charge of a studio in South Dakota.

To Visit In Texas

Dr. F. M. Wallis and E. E. Williams left this morning to spend a week with the former's father, Dr W. M. Wallis, Sr., at La Feria, Texas.

Miss King to Lincoln

Miss Alsamene King will leave tomorrow to spend a few days with Miss Virginia Worst of Omaha en route to Lincoln to enter the University of Nebraska. Her brother, Shane, accompanied her as far as Omaha.

Christian Churches to Have Mass Meeting

The Rev. R. E. Snodgrass Will Be Back From Sunday School Convention

At 2:30 o'clock next Sunday afternoon there will be a mass meeting in the Maryville Christian Church of all the Christian churches in the County to further prepare for the fall campaign. This is an important meeting and each church should have a large delegation in attendance.

It is a more important meeting than the Sunday School convention. The Rev. R. E. Snodgrass will be back from the convention as also will the other preachers.

A. L. Montgomery, one of the field men for the campaign, will be present for this conference. It is of special importance that the church officers be at the conference.

KU KLUX KLAN MAY UNMASK OVER U. S.

MOVEMENT IS STARTED BY LEADERS IN TULSA

GARBS ARE DETRIMENT

Permits Non-Members to Assume Regalia, Commit Depradations, and Lay Blame at Door of Klan

Tulsa, Okla., Sept. 14—A movement to unmask the Ku Klux Klan through out the United States has been launched by Klan leaders here, with a view to remove the chief criticism of their organization, according to a well-informed Klan leader here today.

Reports were current that a resolution is in the course of preparation which will be presented to the national convention to be held soon in Atlanta, Ga. Such a resolution, it was stated, will provide for the discontinuance of masks and gowns in parades and public gatherings.

The movement is believed to have originated in Oklahoma where Governor Jack Walton has conducted a bitter war against the 'Invisible Empire," and has finally succeeded in forcing the Klan to unmask in all public ceremonies in the state.

Ceremonies and other public gatherings held with masks, which made the Ku Klux Klan of post Civil War days an effective instrument for dealing with "carpet baggers" and other law breakers in the South, were declared by Klansmen today to have been as effective as the masked affairs.

Klansmen asserted the masks were a real detriment to the organization because, they said, this permitted non members to assume masks and commit depradations which have been laid at the door of the Klan.

They asserted that the virtual reign of terror in Oklahoma has not been sponsored by the Ku Klux Klan but by others masquerading as Klansmen.

Leaders here propose that the Klan be conducted as any other fraternal organization with a secrecy that has guarded the other orders of the country.

Will Co-operate in Fall Festival Work

Members Vote To Support Merchants 100 Per Cent—Charivaried Ray O'Grady and Wife

The members of the local post of the Veterans of Foreign Wars will cooperate 100 per cent with the merchants of Maryville to make the Fall Festival next month a great success, it was decided at a meeting of the Post last night. The members will assist in every possible way.

Dr. Earl Braniger was voted an honorary member of the Post last night.

The Spanish-American War veterans were given permission to use the V. F. W. club rooms the first Monday of every month for the meetings of this organization.

Ray O'Grady, a member of the Post and a recent benedict, was charivaried by his fellow members last night. O'Grady was taken to the County jail and put in a cell. He was forced to remain there for about an hour. The members of the Post finally found his wife and took her and O'Grady out for a ride around the square.

Finally, Ray and his wife took the members to the Pennington Cafe for a chicken supper. Carl Tarpley furnished the members with a watermelon feed at the Pennington Cafe.

Thirty-two members were preesnt at the meeting last night.

MILITARY REVOLT SPREADS IN SPAIN

REBELS HAVE CUT TELEPHONE AND TELEGRAPH LINES

CENSORSHIP ESTABLISHED

Program Of Revolutionists Is Outlined—Outbreak May Be Bloodless—Foreign Ship Seized

Madrid, Sept. 14.—A military revolution which began in Barcelona has spread throughout the greater part of the country, according to advises received here today.

The rebels have cut telephone and telegraphic communications, hindering communication. In addition, a censorship has been established.

The country is quiet. No fighting has been reported. Military leaders claim that it will be a bloodless revolution.

All garrisons are reported to have joined the rebel army.

Paris, Sept. 14.—Spanish revolutionists at Barcelona have seized a foreign ship, said a dispatch from that city today. However, it did not reveal the nationality of the vessel.

According to reports from Barcelona, the revolutionists are conducting close surveillance of all foreigners.

Rebel troops were co-operating with the police today to maintain order.

The program of the revolutionists was outlined as follows:

First, purification of Spanish politics.

Second, stricter enforcement of law.

Third, reduction of government expenses.

Fourth, protection for working men.

Fifth, impartial investigation of the Spanish defeats at Morroco.

Madrid, Sept. 14—The Spanish cabinet, headed by Premier Allucemas, resigned to King Alfonso today. General Rivera, head of the Revolutionists, was asked by the King to form a new ministry.

LARGEST CIRCULATION IN NODAWAY COUNTY

Late Telegraph News

Columbia, Mo., Sept. 14.—About 50,000 bushels of seed wheat grown in Missouri this year, that has passed the laboratory test and approved as being free from mixture, weeds, disease, by the Missouri College of Agriculture, will be available this fall for state wheat growers, it has been announced here.

Farmers making request of the college will receive supplies of seed without charge. Because of the low market price of wheat this season, much interest is being shown in the quality of seed and a big demand for tested seeds is anticipated.

St. Louis, Sept. 14.—Awaking at a strange address at 3 o'clock in the morning, Claud Barnes told police his money was gone also a couple whom he had been visiting departed. Going outside, Barnes found his automobile was missing. He said he remembered a few hours previous of having taken a drink offered by a woman. He belives the couple took his money and then drove away in his automobile.

Jefferson City, Sept. 14.—Missouri's goat family is growing larger.

S. A. Logan and Jewell Mayes of the Federal-State crop reporting bureau, announce there are 130,000 goats in the state this year, an increase of 9,000 since 1920. The mohair production this year will be 135,000 pounds as against 118,000 last year.

Elimination of wolves, a menace to sheep and goats, has encouraged the promotion of wool growing, the report says.

St. Louis, Sept. 14.—It was to have been a sad scene but as it turned out all was merry and every eye in the room was dry.

Police Chief O'Brien gathered his cohorts about him when he was to test a shipment of tear bombs which were to be used in suppressing riots and similar disturbances. All had plenty of linen in anticipation of a shower of tears from the ducts.

The chief with a handkerchief in one hand, hurled one of the bombs into the room. No tears. Two successive attempts to make the cold hearted policemen weep were unsuccessful when it was discovered the liquid to be used inside the bombs was being sent under separate cartons.

Now the sad scene must wait the arrival of that other carton.

St. Louis, Sept. 14.—If you would be happy and live to a ripe old age, forget the unpleasant things in life.

Thus advises Mrs. Elizabeth Wolff, 97-year-old optimist who has had her share of trouble but through it all has kept her spirits high and gives this as the secret for reaching old age.

Cible In Schools At Oregon
(Skidmore News)

In our neighbor county seat, the city of Oregon, the Board of Education passed a resolution for the Bible to be read in the schools some time during the day. The Skidmore schools might try this out for a while, it surely will not do any harm.

The following is taken from the Holt County Sentinel:

"Our excellent board of education has found use for the Bible in the Oregon schools, as they by a resolution recently adopted, directed the teachers to read the Bible at some time each day in every grade room and at the general assembly of the high school. The resolution was adopted without a dissenting vote."

Mr. and Mrs. E. B. Carter of Clyde were Maryville visitors today.

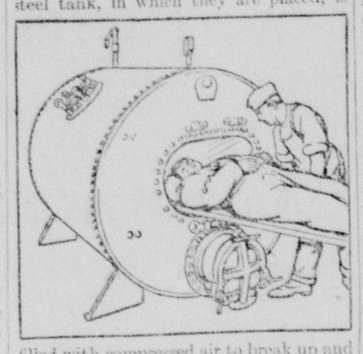
Air Chamber Saves Divers Stricken at Work

As a first-aid appliance to save the lives of divers stricken at their work, a large steel tank, in which they are placed, is



filled with compressed air to break up and drive out bubbles of gas that cause them to become paralyzed or unconscious. The pressure is started at 30 pounds and increased or decreased as the patient needs it. Even though a constant supply of air is pumped below to a diver at work, the great weight of the water and too long periods underseas frequently overcome him, making quick action necessary to prevent his death.

Pacific's Bottom Is Charted by Timing Sound Waves

Charting the bottom of the Pacific ocean between United States and Australia is the task of a navy cruiser using a delicate apparatus to measure the time required for sound to pass from the surface of the water to the ocean's bed and return. Records are taken every five miles while the boat is moving. Knowing the speed of sound through water and the time elapsing between sending and returning of a signal serves to compute the depth.

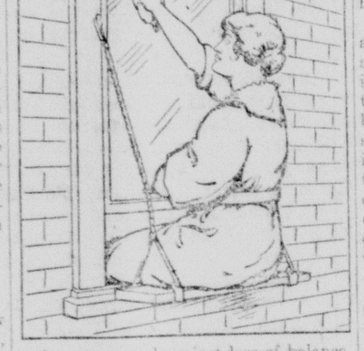
Safety Seat Prevents Falls While Washing Windows

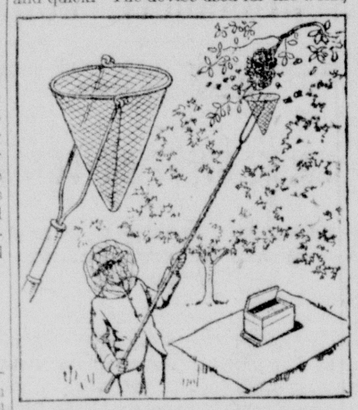
For preventing falls while washing windows in the home, a safety seat has been made which swings on two chains attached to hooks in the window frames. A strap stretched between the chains supports the worker's back in comfort, at the same time



acting as a guard against loss of balance, leaving the body free for movements required in the cleaning.

Basket on Pole Hives Bees Safely

A Wisconsin beekeeper, whose general farm work allows very little time for capturing the swarms that escape his apiary, has found the method illustrated both easy and quick. The device used for the work,



he claims, has saved him many hours of labor as well as numerous painful stings.

The device is simple to make. It consists of a circular rim and a supporting fork made of ¼-in. iron rod, and a cone-shaped screen-wire basket attached to the rim as shown. A stout cane fishpole is used for a handle.

When the bees swarm, they usually alight in one of the trees of the orchard, and often at such a height that it is almost impossible to capture them. As soon as the swarm is located and fairly settled, the basket is raised under the swarm and shaken so that most of the bees will drop into it. Of course, many bees escape but they will return to the swarm and cluster on the outside of the basket. When all is quiet again, the basket is lowered in front of an empty hive and the bees are induced to enter their new home.

Late Telegraph News

Wellington, Kan., Sept. 14.—The western group of railroads is collecting $80,000,000 a year in transportation rates to which it is not entitled, Clyde M. Reed, chairman of the Kansas Public Utilities Commissioner, declared in a statement in which he averred the people of Kansas are being "gouged" by the railroads.

"I always have believed in fair treatment to the carriers," Reed said, "but I do believe also in being fair to the people of Kansas."

"If the Interstate Commerce Commission interprets the Esch-Cummins law to mean the railroads are to receive the last ounce of their pound of flesh in these economical times under which western farmers are suffering, there is only one remedy, and that is to repeal the Esch-Cummins law," he said.

Reed is an opponent of the proposed plan of the Interstate Commerce Commission for the merger of railroads into groups. The plan, he said, would be the longest step in the direction of concentrating wealth, control of transportation and industry into the hands of a few, that ever has been taken.

Leavenworth, Kans., Sept. 14.—Federal prisons are far behind state penal institutions in their methods and facilities, Dr. H. M. Votaw, department of justice superintendent of prisons, declared after an inspection of the federal penitentiary, here.

"The government has not yet learned the lesson of keeping the first offenders segregated from the habitual and hardened criminals," he said. "Here in Leavenworth we soon will need erect new prison buildings to overcome deterioration of the present buildings.

"It is my plan to make these new buildings reformatories for men who have made their first false step. This is nothing new. The state governments have successfully established the validity of segregation long ago.

"Another thing wrong with federal prisons is that the inmates are not employed at useful work. It is not sound reasoning to keep a man within the gray walls of a prison for ten years without giving him an opportunity to accomplish things and then expect him to be a good worker upon his release.

"There should be organized industry that would work with the smoothness of modern factories in all prisons. It should aim to instill in the prisoner industry rather than hatred of labor forced upon him as punishment

"However, I do not believe it wise to attempt to dispose of the products of prisoners on the markets. It is much better to do as most states have done; have prisoners manufacture articles which can be consumed by that state. The manufacture of automobile license tags has been adopted by nearly every state prison.

"This employment has the approval of the country's most noted criminologists as well as labor authorities."

Voctaw had only praise for the menu served in the federal penitentiary here.

"You can easily see the men are treated like human beings," he said, "and that the government is trying to get them started down the right road again."

He declared the average prisoner gains from ten to sixty pounds on the prison diet.

Topeka, Kan., Sept. 14.—Again the champion milkmaid of Kansas is a girl yet in her teens. Miss Matilda Herman, 16 years old, of Berryton, is the new title holder.

The girl dairyhead won her honors at the Kansas free fair in the milking contest before an audience of 10,000 persons. She was awarded the championship over five girl competitors.

The championship formerly was in the hands of Miss Elsie Krasney, who recently captured the championship of Missouri in a contest in Kansas City.

A new champion is chosen each year at the free fair.

Kansas City, Sept. 14—Shortage of coal cars will be unknown to the Southwest during the coming season, according to J. B. Campbell, car service agent for District No. 5, comprising all states in the Southwest.

"Never before in the history of American railroads has the handling and placing of rolling stock been so satisfactory as it is at the present time," Campbell declared.

Figures and railroad statistics were brought forth to substantiate the statement. Especially in the consideration of wheat are freight cars plentiful, he said.

"There are 20,000 empty cars in Nebraska, Kansas and Missouri; half that number being in the proximity of Kansas City, according to Campbell. It was pointed out that orders from coal mines in the Southwest for railway cars called for 11,137, and that actually 11,233 cars were furnished.

A survey of car surplusages and shortages from August 15 to August 22 showed a surplus of 527 coal cars ready for the demand of Southwestern mines. There was no indication of a shortage.

According to Campbell, only two complaints were received by Clyde M. Reed, chairman of the Kansas Public Utilities commission, since May where cars were needed, and they proved to be of minor consequences.

Reports of the various railroad companies operating in this district show 50,000 new cars have been placed at the disposal of shippers since January 1, and that 31,946 coal cars now are being rushed to completion, making a total of more than 80,000 new cars available in the Southwest alone.

Not only are new cars being added but the locomotive power also is beincreased, according to reports of the railroads. In the period from January 1 to August 15, 2,364 new locomotives had been put into service, with 1,671 under construction, a total of 4,038 new locomotives.

More than a million cars a week have been loaded by the railroads eleven times in 1923, Campbell said, and in some instances the million mark was exceeded. That is a record in railroad transportation, he explained.

Campbell explained the purpose of the car service division as follows:

"It acts as intermediary between the railroads and the shipper and vice versa. When there is a need in a particular section for cars, the car service division sees that the demand is met, and to accomplish that end, it can order any railroad to 'get them there' and that road is obligated to see that 'they get there.'

"The power of the division is unlimited in that the officials of a railroad or even a group of railroad cannot dictate what it shall do and they must see that their organizations comply promptly with the requests of the car service division."

The car service division is affiliated with the American Railway Association with headquarters in Washington.

MASONIC EVENT IN CAPITAL NOV. 1

CORNERSTONE OF WASHINGTON MEMORIAL TO BE LAID

IS GREATEST MEMORIAL

Impressive Ceremonies Will Be Witnessed By Thousands Of Members Of Order

Greatest of all memorials ever erected to any man will be the George Washington National Masonic Memorial, now being built in Alexandria, Va., just outside of the national capital. The cornerstone of this beautiful and extensive structure, to cost $4,000,000, will be laid on Thursday, Nov. 1, and Masons of the United States are planning upon making this great occasion the most impressive in the history of the order. It is expected that every one of the 17,000 Blue Lodges in this country will have one or more representatives at the Nov. 1 festivities. In addition, there will be the pilgrimages from every state. Railroads already are preparing to handle the enormous number of travelers to Washington, which is expected to reach into the hundred thousands. There are approximately 3,000,000 Masons in the United States, and every one of them will want to be present at this momentous ceremony. A large delegation is to go from this city.

The George Washington National Masonic Memorial project was determined upon at a meeting of prominent Masons from several Grand Jurisdictions in Alexandria on Feb. 22, 1910. This meeting was held in the historic lodge room of Alexandria-Washington Lodge, No. 22, of which the first president was the first Worshipful Master and over whose deliberations he presided when he was the chief executive of the nation. The plans at first were fairly modest, but as they were discussed year after year the plans were enlarged until at present they have assumed gigantic proportions.

The memorial is being erected on Shooters Hill at Alexandria, on the Arlington Ridge, which commands a view of the city of Washington. The Memorial association has acquired in all 32 acres of land surrounding Shooters Hill, which will be passed by all those who travel from the national capital to Mount Vernon, Washington's home. The edifice will be surrounded by artistic landscaping and will be reached by broad walks and stone steps ascending through seven terraces. From the topmost collonaded tower of the memorial, visitors will view for miles around the region in which Washington passed a great portion of his life.

The dimensions of the edifice over all will be 230 feet in depth by 160 feet in width, exclusive of the steps, terraces and approaches. Its height to the summit of the observation tower will be 200 feet. The main masses of the building comprise a base in which will be located the great Washington Memorial Hall and various Masonic rooms, and above this base will rise a form of tower. One of the most stately features will be an imposing atrium, 70 feet wide and 100 feet deep, which will form the Memorial Hall, and in which it proposed to set a statue of George Washington. Thi shall will be 64 feet high, rising by a clerestory above the surrounding portion of the building. It will be flanked by great Ionic columns 40 feet high and surrounded by a number of rooms devoted to Masonic interests, above the roof of which clerestory lights will admit the light.

The entrance of the building will be expressed in a six-columned portico of pure Greek Doric design, forming an interesting contract to the plain unbroken side walls of the Masonic rooms. Rising above the Memorial Hall, and forming the second story of the tower, will be a museum room to house the many memorabilia of George Washington and his time, as well as interesting relics connected with Washington's service as Master of Alexandria-Washington Lodge. There will be a third level above the museum, above which again there will be a covered observation platform, all three levels screened by stately collonades.

Bible Thought for Today

THE FRIEND OF SINNERS.—Their scribes and Pharisees murmured against his disciples, saying, Why do ye eat and drink with publicans and sinners? And Jesus answering said unto them, They that are whole need not a physician; but they that are sick. I came not to call the righteous, but sinners to repentance. — Luke 5:30-32.

The Right Way!

There's no better method of reaching the people than thru the Want Ads. Everybody reads them, for they are news to those who seek something and likewise news to those having something to sell.

Use the Want Ads more—for any purpose—and we are satisfied that you will be gratified by the results.

The Democrat-Forum

A TRUE STORY OF PUTTING IT FOR'EM BEFORE 'EM IN THE FORUM.

By W. Ad.

That the subconscious mind is a fertile field for sales suggestions sown thru the classified columns of the Democrat Forum by advertisers was proven by an incident we heard the other day.

About two weeks ago a man advertised in the Forum that he wanted chimney cleaning work to do. At that time one of the readers of the Democrat-Forum glancing over the classified columns of that edition noticed the man's ad, but did not give it any more thought than he did the rest of the ads.

However, it had made an impression on his subconscious mind, as all advertising does, for about two weeks later he wanted just that sort of work done; remembering the ad that he saw two weeks before, he called the office and got in touch with the man who advertised.

REMEMBER, fellow readers of the Democrat-Forum are looking every day for some reader to tell about that which he would sell.

Pickering

(O. G. Null).

A. T. King has moved his family from his farm six miles east of town to Maryville in order to have better school advantages. Mr. King will hire a man to look after the stock on the farm this winter and may move back to the farm himself in the spring.

A deal was closed last week in which Frank Morin sold his property in the south part of town to H. T. Carmichael, who will get possession of his purchase March 1. Mr. Carmichael will probably rent out his farm two miles south of town when he moves to town.

Riley Fletchall and family have moved this week from the Chas. Hinton place, three miles southeast of town to the Lee Sharr place three and one-half miles northeast of town.

The drug store front is receiving a new coat of paint this week which adds greatly to its appearance. John Collins of near Salem church is doing the work.

Stock shipments from this station have been quite heavy this week. Among those shipping were Ervin Chambers, a car of hogs and one of cattle; P. H. Gorman & Sons, two cars of cattle; the Farmers Exchange a load of hogs.

Mr. and Mrs. George Conz of Maitland, accompanied by their daughter-in-law, Mrs. Rolland Conz, have been visiting old friends and neighbors here this week. The Conz family formerly owned the farm now owned by H. W. Kellogg, north of town, but moved to Maitland about sixteen years ago.

Mrs. Mollie Kemper entertained at dinner on Wednesday: Mr. and Mrs. C. E. Holiday, Mrs. Sue Holiday, Mr. and Mrs. F. H. Kemper and daughter, Mollie Lou, Mrs. R. B. Gex, Jr., and son, R. B. III, of near Graham and Mr. and Mrs. James Tillotson of Hebron, Nebr.

Dr. E. L. Crowson went to Rochester, Minn., last Sunday where he will take treatment for a nasal trouble which has bothered him for some time.

George Neal is advertising a public sale for next Monday at the Neal farm one and one-half miles northeast of town in which he will dispose of a lot of stove wood, lumber and barn poles, and some surplus live stock.

Alva Lett will make a closing out sale on Tuesday on the Morford farm, southeast of town. After the sale he will move to Pickering and take possession of the drug store which he has purchased.

Ernest Thull will make a closing out sale next Thursday on the Mrs. Hamblen farm three miles north of town. He expects to move to Maryville after the sale and will work in a garage there.

Vern Fakes and Howard Null shipped two loads of yearling steers and heifers of their own feeding to Chicago last Saturday. These cattle were mostly Angus and Hereford breeding and will make the kind of beef that none but millionaires can eat. Although they were sold on a declining market, they showed a nice profit on the feed they consumed.

Oll Coleman also shipped to the same market Saturday a load of yearlings mostly of Shorthorn breeding, which were also of the fancy type and which showed that Mr. Coleman is an expert in the feeding game. Howard Null and Mr. Coleman accompanied the shipment to Chicago and returned Wednesday.

School Notes.

Naomi Swaney enrolled in high school Monday bringing the enrollment up to fifty-eight.

Maybelle Burch was absent from high school on Monday and Tuesday.

The sophomore, junior and senior classes entertained the freshmen Wednesday evening with a picnic in the Bosch grove south of town. Games of various kinds were played and a watermelon feed indulged in. The chaperones were Misses Lola Moore and Bess Kemper. Those present besides the members of the classes were Miss Ethel Stanton, Miss Mary Walker, Mrs. Ruby Moore.

The sophomore class has elected as officers for the year Katie Lett, president and John Gray, secretary-treasurer.

The freshmen elected Ruth Hinton, president and Olive Boyd, secretary treasurer.

The senior boys initiated the freshmen boys Tuesday evening by taking some of them two or three miles from town then after tying their hands behind their backs, putting them out to walk back to town. After all had returned to town some of the young men around town attempted to play the same thing on some of the seniors, who were the most active in catching the freshies. They soon found out, however, that they had taken in too much territory as all the school boys rallied to the assistance of the seniors and after some pretty rough scrimmages, the town boys were repulsed. So much for the school spirit which pervades our school.

M. E. Church.

Sunday school at 10 a. m. next Sunday, both at Pickering and Myrtle Tree. No preaching service at either place during the day on account of the absence of the pastor.

Christian Church.

Bible school at 10 a. m. next Sunday. It is expected that Pastor C. A. Knouse will be home from the convention and that he will preach both morning and evening at the usual hours.

The play, "The Little Clodhopper," will be given at the church next Wednesday evening under the auspices of the Women's Council. The play was presented last spring and the same cast of characters will appear in the production next week.

HEALTH and beauty go hand in hand. Where the system is run down—the face drawn and haggard—the body limp and lifeless—beauty is missing. Looks of pity supplant those that might have been gazes of admiration.

Restore your health and beauty will take care of herself. S. S. S.—the rich blood builder—rekindles the spark of health and lights the blaze of beauty by building red blood cells. The nerve power of your system finds life in these very blood cells. Build more red blood cells and your nerve power will increase. S. S. S. builds them. Rich blood will tingle through your system. That lost charm will return. Your entire system will be repaired. You will be ready to cope with the impurities and blemishes that handicap beauty.

As physical health means beauty so, too, does S. S. S. mean beauty. For S. S. S. means systems that are free from impurities—pimples, blackheads, acne, boils, eczema, rheumatism. S.S.S. and good health go hand in hand.

S. S. S. is made of pure vegetable ingredients. It is sold at all good drug stores. The large size bottle is more economical.

Entire Town of Elcho Lives in This Hotel

Elcho, Wis., boasts of the largest hotel and community center in the world in proportion to its population. Last February the town was wiped off the map by fire, not a single house escaping. Charles W. Fish, president of a lumber company, decided to build a hotel and community center, and within 90 days had erected a building occupying one block and containing a movie theater, bank, drug store, barber shop, general store and a hotel consisting of 60 rooms and equipped with every modern convenience. The entire population lives at this hotel, and the only other building in the city is the community center, which everyone is welcome to join.

Skidmore Class 100 Per Cent at S. T. C.

All But One Of 1923 Class Have Enrolled, and the Other To Start After Thanksgiving

(Skidmore News)

For the first time in the history of the Skidmore high school, all the members of one graduating class will attend the State Teachers College at Maryville at the same time.

The 1923 class, consisting of five girls and four boys, went to Maryville Monday, except Francis Medsker, and enrolled for the fall and winter term at the College. Medsker intends to enroll after the Thanksgiving holidays. This is one exception that is not often found in any school district and is one which Skidmore and vicinity is proud of.

Last year several of the 1922 graduates attended the State Teachers College and some went to other colleges during the winter, but never before has it been that all of one class attended the same college at the same time.

There are also several who graduated from the local high school during the past five or six years that are attending the college this winter and a few who have graduated are now teaching school.

The 1923 class included Gladys Brown, Ethel Lyle, Eula Miller, Pauline Rodman, Artie Lee Parrish, Junior Skidmore, Denton Peoples, Harry McDaniel and Francis Medsker, several of whom attended the summer school at Maryville last summer.

Others who are former graduates of the local high school during the past five years and are attending the College this winter are: Vernon Goslee, Opal and Olive Stephenson, Earl Peoples, Myrtle Brown and Hollis Hays.

Many of the girls will stay at the Residence Hall.

Nodaway With 8 Consolidated Dists., Leads

Jefferson City, Sept. 14—Charles A. Lee, state superintendent of schools, apportioned $122,170 to the consolidated high schools of Missouri. While there is no specified limit when this money shall be released, Mr. Lee thought best to give the schools the benefit of the funds as early as possible.

Each consolidated district received $25 a square mile or fraction thereof up to thirty-two square miles, $800 being the maximum which any consolidated district can receive. Each district must have a classified high school and teach one unit in agriculture in order to secure state money.

Nodaway County, with eight consolidated districts, has more consolidated high schools than any county in the state and also received more state money than any other county, having been apportioned $5,975.

Following are the northwest Missouri counties and the amount apportioned to each for the consolidated schools:

Andrew	$1,725
Atchison	2,625
Buchanan	500
Caldwell	2,000
Carroll	625
Davies	2,375
Gentry	1,725
Grundy	550
Harrison	4,500
Holt	1,550
Linn	1,700

Nodaway Has 7,373 School Children

Jefferson City, Sept. 14—There were 904,872 children of school age in Missouri this spring, according to the list made public by Charles A. Lee, state superintendent of public schools. This is a decrease of 3,654 since 1922.

Mr. Lee compiled the enumeration in order to apportion the money for free textbooks to the counties. There was $500,000 apportioned for this purpose last year and there will be $800,000 distributed this year. This money will be sent out early in October. The amount due each county is obtained by dividing the total amount of money by the number of children in each county.

The enumeration by counties includes:

County	Enumeration.
Andrew	3,573
Atchison	3,479
Buchanan	21,351
Caldwell	3,532
Carroll	5,124
Clay	5,566

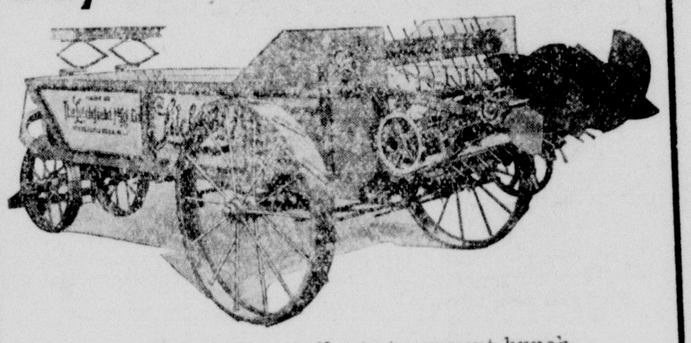
Buy the Litchfield Spreader



If you want a tailgate to prevent bunching, there is just one machine that supplies it. If you appreciate scientific unloading without packing and excessive friction, you will ask for the Bull Dog Beater wheel and the No Choke Box. If you want simplicity and a fool-proof machine, you will buy the oil packed bearings and the single lever on Litchfield Spreaders. If you desire a winter machine, you will seek the self-cleaning conveyor and automatic front Endgate. If you want to be absolutely safe in your decision, you will buy the spreader made by the oldest builder and who make every part and piece in their own factory—just common horse sense thinking—that's all.

A Five-Year Guarantee With Every Machine.
